

Economic Development Board

Stanwood City Hall
Conference Room
10220 270th Street NW, Stanwood

Meeting information is posted online at
<https://stanwoodwa.org/>.

Friday, September 20, 2024, at 7:30 AM

1. Receive the Minutes of the June 21, 2024, Meeting
2. Equipment Rentals
3. Rules of Procedure
4. 2025/2026 Workplan and Budget
5. Downtown Beautification
6. Business License Analytics
7. Roundtable Discussion
8. Next Economic Development Board Meeting – October 18, 2024

Economic Development Board Minutes
Meeting Minutes
Friday, June 21, 2024 | 7:30 am

Economic Development Board Members Present: Les Anderson, Randy Heagle, Kristine Birkenkopf, David Pelletier, Dustin Dekle, Teresa LaFleur

Staff Present: Niki Strachila, Audrey Rotrock

Others Present: N/A

Les Anderson called the meeting to order at 7:30 a.m.

1. Receive the Minutes of the April 19, 2024 Meeting

The minutes of the April 19, 2024 meeting were approved unanimously.

2. Budget Discussion

The Board unanimously approved the dissolution of the Discover Stanwood Camano website, but want to keep the link live so it directs visitors to the Stanwood City website. Consider advertising on the Seattle North Country tourism website. Look at Leavenworth's website for inspiration to bring people to Stanwood. Consider getting more ad space on the I-5 billboard for seasonal events. Engage with organizations to offer Stanwood as a destination for their events.

3. Rotary Parade Tourism Promotion Grant Submission

All were in favor of granting the Rotary Parage Tourism Grant.

4. Twin City Idlers Car Show Tourism Promotion Grant Submission

All were in favor of granting the Twin City Idlers Car Show Tourism Grant.

5. Rules of Procedure

All were in favor of the Rules of Procedure and meeting every other month.

6. Special Event Applications

Staff and the Board discussed recent special event applications.

7. Upcoming City Events

Staff and the Board discussed previous and upcoming City events.

8. Business License Analytics

Staff and the Board discussed business license applications received in April and May

9. Round Table Discussion

Consider adding a covered stage at Heritage Park.

10. EDB Next Meeting tentatively scheduled for July 19, 2024

Adjourn: 8:46 a.m.

CITY OF STANWOOD
ECONOMIC DEVELOPMENT BOARD
AGENDA STAFF REPORT

MEETING DATE: September 20, 2024
SUBJECT: September 20 Agenda Topics
FROM: Patricia Love, Community Development Director
Niki Strachila, Communications and Marketing Specialist

EQUIPMENT RENTALS

The City of Stanwood has been getting requests from local organizations to borrow city equipment including the stage and the city's audio system for community events. Staff would like to support events but do have concerns about equipment being damaged or lost in the process. A solution could be charging rental fees to help recover any costs associated with damage or misuse. Is the Board in support of charging rental fees for equipment, and should equipment be rented out at all? It is worth noting that only Public Works staff is permitted to move the stage which can and does often result in overtime fees that the third party is responsible for paying.

RULES OF PROCEDURE

At the previous Economic Development Board meeting, the Board approved amending the Rules of Procedure document to allow meetings to take place six times per year, rather than every month. This potential amendment was presented to the Community Development Committee (CDC) during their July meeting. Rather than having meetings held six times per year, CDC recommends having presenters, based on recommendations from the Board, come in every other month to enrich meetings and supplement content. Councilmember Shepro provided the following list of potential speakers and topics below for consideration:

I envision these additional meetings involving staff time only to the extent of assisting Economic Committee members in the lining up of guest speakers. Committee members would be much more adept at creating a speaker lineup than me, but here are a few ideas to consider.

- Representative from the Economic Alliance Snohomish County.
 - Snohomish County officials (perhaps Nate Nehring or Dave Sommers) to talk about the Cascade Industrial Center and how it is affecting Stanwood.
 - A Lennar Homes representative to talk about the typical buyer at Chandler's Reserve.
 - A regular update on how artificial intelligence is affecting the local business community and how they can benefit from it.
 - Invite some of the largest Stanwood employers, such as Josephine House, the School District, Hagen, QFC, the Country Store, etc. to talk about what they see happening.
 - Should downtown streets be closed for special events, or should the events be held at a park, or later in the day when most businesses are closed. It has been difficult to see the benefits to these downtown businesses, especially the concerts.
 - Should we weigh giving tax breaks as a way to attract new businesses?
 - Could the Washington State Main Street Program help in revitalizing Stanwood? <https://dahp.wa.gov/local-preservation/main-street-program>
 - The creation of a Cultural District in west Stanwood.
 - What are the best ways for Stanwood businesses to capture increased consumer dollars from Camano Island residents?
-

Questions for the Board

- What are the Board's thoughts on having guest speakers come in on a semi-regular basis in 2025?
- What types of topics would the Board be interested in hearing about?
- Does the Board have any specific speakers in mind that you'd like to hear from?
- Another consideration for the Board is the creation of quarterly business meetings that are open to all businesses. This would allow the city to engage with the business community on a semi-regular basis about important topics, programs and projects.
 - There would be no Economic Development Board Meetings on the months that quarterly business meetings are held.
 - Does the Board think the business community would be interested in attending quarterly business meetings?
 - Is the Board in favor of staff investigating this option further?

2025/2026 WORKPLAN

The above-mentioned recommendations segway nicely into a larger discussion with the Board about the creation of the 2025/2026 Economic Development Board (EDB) Workplan. As part of the budget planning process, staff will put together a workplan that will serve as a guide for EDB priorities and areas of focus. Below is a list of recent Economic Development Board accomplishments for reference.

2023-2024 Economic Development Board Accomplishments

Comprehensive Plan Update:

Board members helped shape the Economic Development Element of the 2024 Comprehensive Plan. The Comprehensive Plan will be adopted by the end of 2024 and serves as a guiding document for growth and development in Stanwood over the next 20 years.

Tourism Promotion Grant Approvals:

Between January 2023 and July 2024, the Board approved at least six tourism promotion grant requests supporting local events that draw tourism to the region.

Storefront Improvement Program:

Between February 2023 and July 2024, the Board approved six Storefront Improvement applications to help beautify downtown and support local businesses.

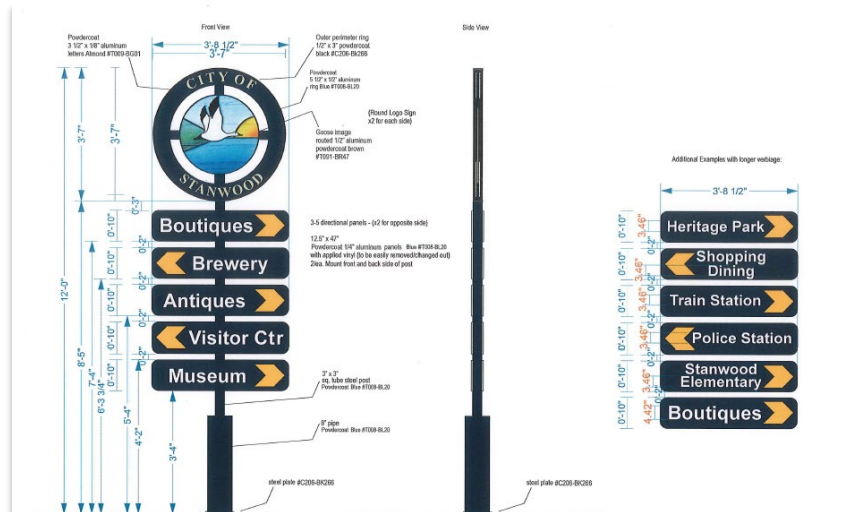

Depot Park/Sebranke Property:

The Board weighed in on different ideas and concepts for the Sebranke Property, now named Depot Park. City staff are currently assessing different funding opportunities for this project.

Wayfinding Signage:

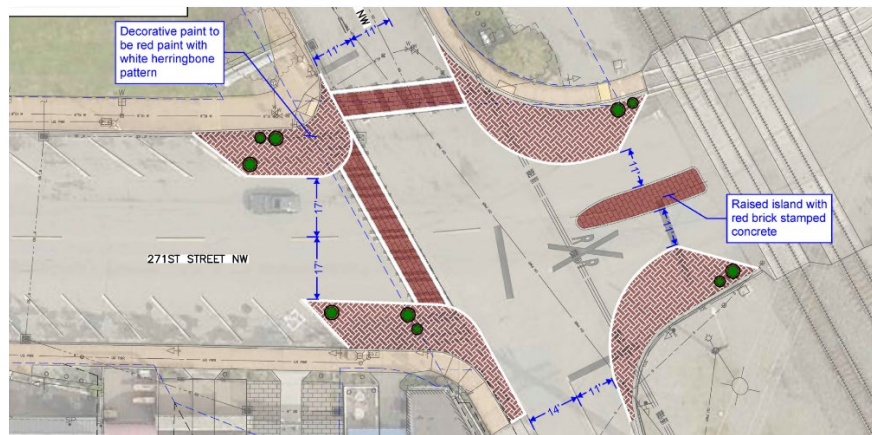

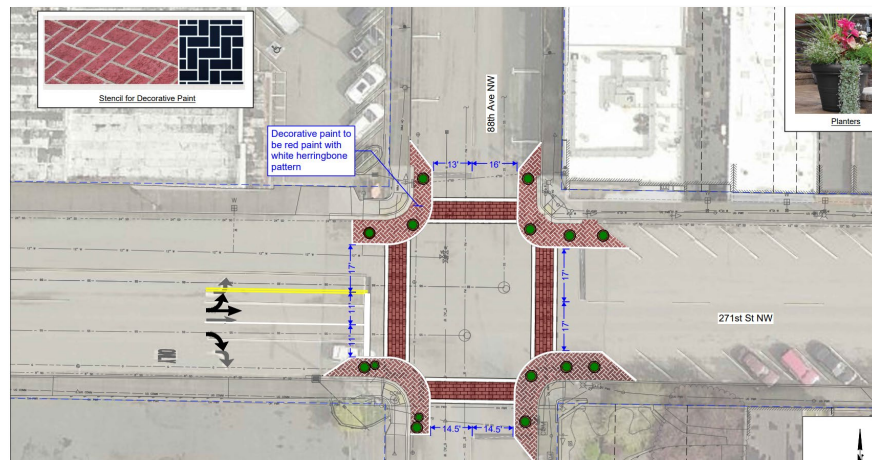

The Board helped shape both placement and wording for downtown wayfinding signage, including signage for 92nd Ave NW.

88th Avenue Arch Art:
Economic Development Board members helped select the final artwork that will be displayed on the 88th Avenue Arch with the first call for art taking place in 2023 and the second call for art taking place in 2024. The first selection of banners is now being displayed.

East-End Traffic Calming Measures: The Board provided feedback on the East-End Traffic Calming Measures that are intended to slow traffic and beautify downtown. The 88th, 84th and 271st Intersections, Mid-Block Crossing and Triple Cedarhome Intersection are all part of this project, along with Depot Park. City staff are currently pursuing grant opportunities to fund construction.

2024 Municipal Code Update:

The Board was involved with 2024 code amendments pertaining to Businesses Licenses and Regulations as well as zoning amendments.

West End Gateway:

In both 2023 and 2024, the Board provided feedback on the West-End Gateway. As of now, the Gateway will involve two gateway poles being installed by Public Works with the City's logo. The poles will be tall enough to hang a banner over the street to advertise special events and will be visible from SR-532.

Looking Forward – 2025/2026

Per the Rules of Procedure Document, the Economic Development Board was established in 2014 to act as a liaison group between the business community and the City. The purpose of the Board is to:

1. Provide a communication link between the City and the business community.
2. Advise the City on business perspectives on a range of policy issues such as capital planning, zoning amendments and land use policies.
3. Advise the City on grant applications for 1) special event grants that benefit Stanwood and 2) small capital project grants benefiting Stanwood downtown.

Workplan Items

Below is a list of ongoing work as well as potential projects that can be included in the 2025/2026 Economic Development Board Workplan for the Board's consideration:

Ongoing Work

City beautification work: The Board will continue to play an integral role in city beautification work in 2025 and 2026. Beautification work as defined by the [City Beautification Action Plan](#), celebrates the beauty of Stanwood by making investments into businesses, local aesthetics and infrastructure.

Storefront Improvement Program: The Board will continue to review Storefront Improvement Program applications before going to the Community Development Committee and Council for formal approval.

Tourism promotion grants: The Board will continue to review and approve tourism grant applications to support events that draw tourism to the area.

Business licenses and analytics: The Board will continue to evaluate monthly business analytics data.

2025/2026 Special Projects for Consideration

Tourism grant opportunities/special projects: In 2025, staff would like the Board's assistance in determining types of tourism grants and special projects to pursue to help market the greater Stanwood Camano region as a destination of choice.

Resources:

- [Here is where you can explore](#) different tourism grant opportunities offered by the state.

Special events: As representatives of the business community, the Board will be tasked with providing recommendations/input about the types of events the business community would like to see, as well as the city's special event process.

Questions for future discussion:

- What types of events benefit businesses?

- How can we be more inclusive of the west-end?
- What types of events is Stanwood lacking in?
- How can the city improve its current events?
- How can the city streamline the special event permitting process to encourage more third parties to hold their events here in Stanwood?

Business recruitment, retention and expansion: Members will work closely with staff to perform an assessment of the city’s role as it pertains to business recruitment, retention and expansion. This would be a special project for 2025 and 2026.

Resources and Examples:

- [City of Bellingham](#)
- [Grays Harbor](#)
- [Economic Alliance of Skagit County](#)

Questions for the Board:

- Is the Board in support of this special project?
- Do members know of other cities who have strong business retention and expansion programs – cities that would make a good case study as we begin this work in 2025?

Downtown historic arts district analysis: City Council has expressed interest in the implementation of a downtown historic arts district. With the help of the Economic Development Board, staff would like to perform an analysis in 2025/2026 to determine what steps would be involved in the creation of an arts district and if this is both a viable and beneficial option for Stanwood. Creative districts are often demarcated areas intended to create an “arts and culture” hub with art galleries, theatres, music venues, public squares, etc.

Resources

- [Implementation Guidelines](#) (WA State)
- [Bellingham Arts District](#)
- [Seattle Arts Districts](#)

Questions for the Board

- What are the Board’s initial thoughts on this project?
- Are members in favor of Stanwood having an arts district downtown?
- Do members know of any successful arts districts that would serve as a promising case study?

Strategic partnerships and relationships: In 2025 and 2026, Staff would like to partner with the Board in thinking of ways to engage the larger business community, and to develop strategic partnerships. Whether that is by holding quarterly roundtables or hosting speakers six months out of the year at EDB meetings.

Additional Questions for the Board

Of the “potential projects” listed above, what does the Board think should be prioritized and/or included in the Workplan?

- Are there special projects that should be prioritized over others?
- Are there items not listed here that should be part of the Workplan?
- What does the Board hope to achieve in the coming year?
- What does the Board feel current meetings are not addressing?

Staff will present a fully flushed out 2025/2026 Workplan to the Board at the end of the year once the Economic Development Budget is finalized.

Proposed Budget for Reference

During the June Economic Development Board Meeting, the Board agreed on shifting dollars and focus away from Discover Stanwood Camano and toward events that will draw tourism to the region in the next budget cycle. Below is the proposed budget that was presented and agreed upon by the Board. The budget is now under review with staff, directors and Council and is subject to change. A final budget will be adopted for 2025/2026 by the end of the year. The Economic Development Board Workplan should align with the budget and vice versa.

Item	Proposed Funding
City Events	\$35,000
15 Billboard Program	\$10,500
Summer Concert Series	20,000
Stanwood Commerce Alliance	\$5,000
Camano Chamber of Commerce	\$1,000
Event Marketing Grants	\$11,000
Support Grants	\$10,000
Event Advertising	\$2,000

Economic Development Supplies	\$2,000
Economic Development Printing	\$5,000
Storefront Improvement Program	\$50,000 (Finance has cut funding by 50% for the 2025/2026 biennial budget).
Total Budget	\$151,500

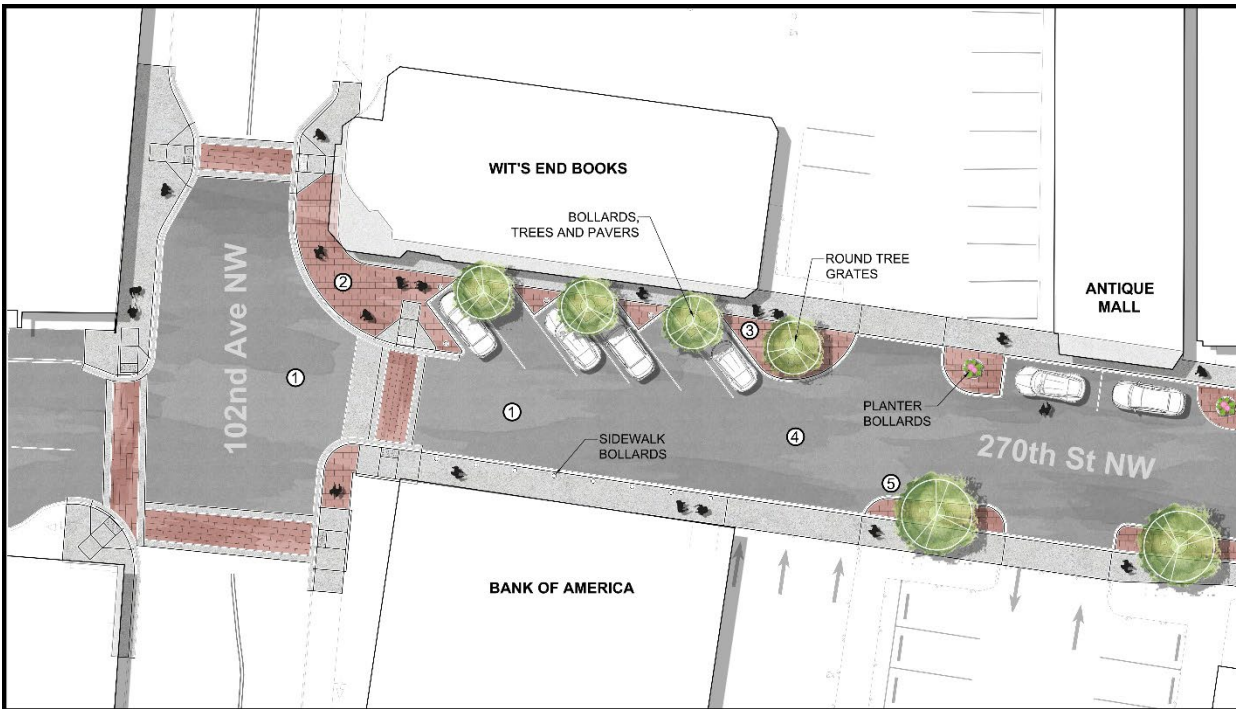

DOWNTOWN BEAUTIFICATION UPDATE

As part of the Twin City Mile Revitalization Project, staff partnered with Perteet Engineering and Lankford Associates to draft beautification concepts for 270th Street NW (the Brick Road) with the goal of unifying and beautifying downtown Stanwood, from east to west. These concepts will be presented to area businesses with a tentative open house date of October 16 from 8-10am. A second open house for community members will be held on Thursday, October 17 from 5-7pm.

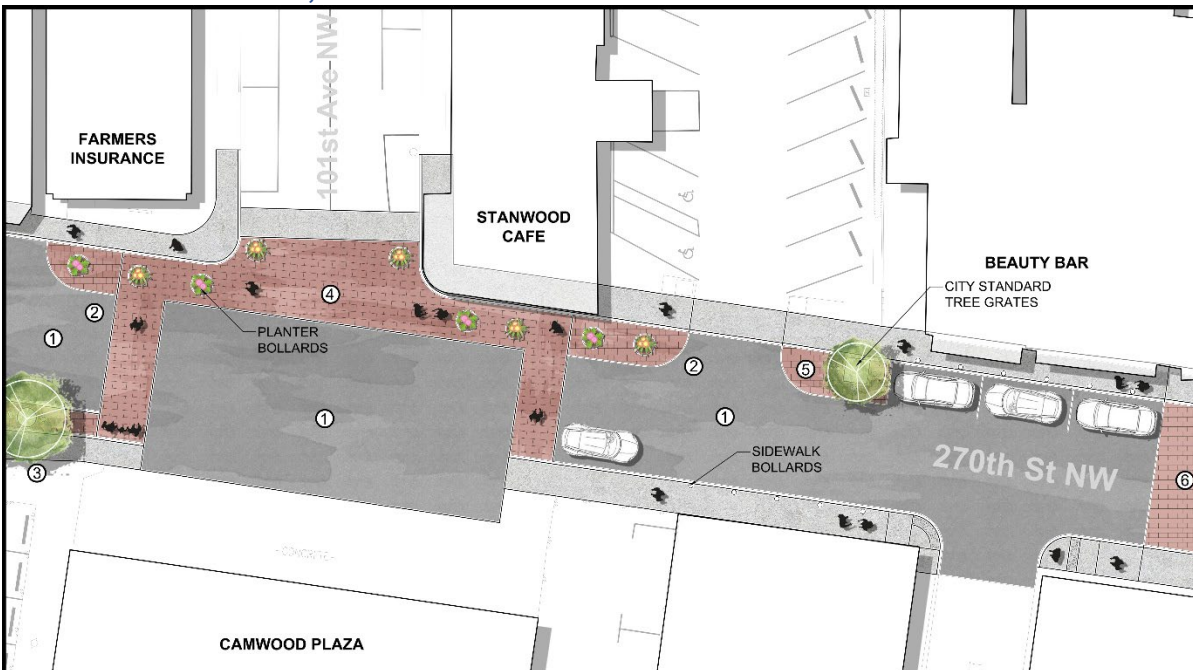

270th Street NW, Full View

102nd Avenue NW Intersection

270th Street NW, Mid-Block

Camano Street Triangle

Note, staff will be presenting an additional concept showing a traffic circle at the Camano Street Triangle during the open houses. The concept is still being designed.

The city intends to use stamped concrete rather than actual brick for cost-savings. There are also plans to add vegetation as well as sidewalk bollards. A cost-estimate for these improvements is in the process of being determined. After the public engagement period, the concepts will be refined and then brought to boards and commissions and City Council for formal approval. Once approved by Council, city staff will assess funding opportunities and the timeline for construction. Council recently approved beautification and traffic calming concepts for 271st Street NW, as well as for Depot Park – a new micro-park that will be constructed near the AMTRAK station.

Questions for the Board

- What feedback does the Board have about these concepts?
- What questions does the Board have?
- What key considerations should staff be mindful of?

Raplee Property Update

The triangle property located at the confluence of 271st Street and 270th Street in downtown Stanwood is owned by Kathleen Raplee. This property has been identified as a strategic point along the Twin City Mile as it is the entry point into the west-end and Brick Road.

Twin City Mile – Raplee Property

Analysis

City staff and consultant, Maul Foster and Alongi, submitted a funding request to the Department of Ecology to conduct additional environmental testing to better understand the level of on-site contamination. Ecology approved the request and awarded a grant in the amount of \$76,000 to address the contamination characterization data gaps and evaluate site cleanup options. This is the first step in potentially acquiring and cleaning up the site. Once the final reports are completed, the City will make a “go / no go” decision about moving forward with a potential cleanup grant.

Current Project Status

The city, in partnership with the Department of Ecology, has begun ground penetrating radar work to see what is underground before field testing begins.
